

# MONROE CITY NEWSLETTER

## MAYOR'S MESSAGE

With spring on its way it's always exciting to see nature start to turn green, and the temperature warm up. In conjunction with White's Sanitation, the city is having a "Spring clean Up" from April 13th thru April 23rd. We hope that all will take a little time to do some sprucing up around their property. Monroe is a great community — lets keep it looking that way.

Easter is just around the corner and with that the Youth City Council is sponsoring an Easter Egg Hunt

on April 5th at 10:00 am for all the younger children in the community. We really appreciate all that the youth council and their advisors do.

The finishing touches are being made on the new county EMS/City maintenance building. This is a great addition to the city. In the city's portion of the building the city crew will finally have a place to bring vehicles out of the weather to work on them. On the county side they'll have a place

to keep the ambulance out of the weather and a place for the EMS members to meet. In May we're looking at having an open house for all the citizens to come and see.

Work is progressing on the new hydro-plant up the canyon. A project like this takes a lot of behind the scenes work before you ever see anything happen. Hopefully this spring you'll be able to see something take shape.

We appreciate all of you and all that you do to keep Monroe a great place to live.

Irrigation Water Scheduled To be turned Into the system April 16, 2012 Weather permitting

Easter Egg Hunt For 11 years old and younger April 5th 10:00 am Mtn. View Park.

## ANIMAL'S AT LARGE

One of the main complaints the city office receives from residents is the problem of dogs running loose.

People in our little valley enjoy being able to walk, ride bikes,

and allow their children to walk to and from school and their friend's houses. When dogs are running loose this can impose on the safety of those wanting to enjoy these activities.

We understand that most dogs are not likely to bite, but the leash law must be followed.

The law reads: *It shall be unlawful for any dog to be at large at any time.*

Open burn season will end on May 31, 2012.

## MONROVIAN PARK

The U.S. Forest Service is asking Monroe City to take over management of Monrovia Park up the canyon. This would involve Monroe City mainly taking over the maintenance of the park. A benefit to doing this would be that certain sites could be reserved by contacting the city.

Before the city does this we would like citizen input.

You can express your opinion by contacting the Monroe City office, or complete the survey on our web page, [littlegreenvally.com](http://littlegreenvally.com), or attend the April 10th City Council meeting at 7:30 pm.

## SPRING CLEAN UP

Spring clean-up will go from April 13th thru April 23rd. During this time White's sanitation will place two dumpsters on the south end of town. One of the containers will be for tires only, the other one is for all other garbage. However you may not put anything toxic such as batteries or paint in either dumpster.

There will be a designated place by the dumpsters for such items.

This is a great time to clean your yards, maybe even help a neighbor clean theirs so Monroe will look its best.

*There is no better place to live than Monroe, let's work together to keep it that way.*

## BOY SCOUT—EAGLE PROJECTS

Over the years Monroe City's has had many young men in our area earn their Eagle Scout award by completing a project for the city. This is a great contribution to our city.

To help bring awareness and credit to the scouting program for all they contribute to our city, we will be listing current projects and completed

projects on our web page, [littlegreenvally.com](http://littlegreenvally.com).

Please contact the city office to inform us of your project so that we can add it to our web page.

If you are currently looking for a project you can contact the city to see if we have anything on our Eagle

Scout Project list that needs to be done, or better yet, if you see something that you think would benefit the city and would meet the requirements for you eagle project. Once a project is selected and has been approved by the scouting organization you can come before the city council and present your project for approval and funding.
